301162 Information Security Management Assignment

Due Friday 24/4/2020 at 11:59pm

Task: Literature review on a cyber security incident. You are required to pick a case that is significant. You may select a case from the list:

https://www.youtube.com/watch?v=xZZ4dKZKyE8

Requirement:

1) You are required to discuss your topic selection with your lecturer beforehand and have your topic selected before week 5.
2) Your report is required to be1500-2000 words excluding references and cover page. At least 500-800 words are about your understanding of the topic, your reflection and conclusion.
3) Your report should include: the background of the organization and the incident, the description of the incident, the analysis of the incident from security management point of view, and your opinion, conclusion and suggestion. Please find the detailed layout of the report in the LG.
4) Submit word document so the font and size can be verified.
5) This is an individual based task. Please refer to the Learning Guide for detailed instruction.
6) Use your student number as part of your submission title. e.g. if your student number is 12345678, your submission title should be 12345678-LiteratureReview
7) Each of the above point counts toward the assignment assessment.

Submission: vUWS site.
